Subject: Re: Just a question on Briefing Paper for Feb 8 Meeting with AK Tribal Rep- no rush

Stephanie:

I've gotten inquiries from the Administrator's office regarding the status of the briefing materials for the 2/8 meeting. Jim sent these to you on 2/3. Please let me know the status of OWOW's review. The Administrator's office would like them by tomorrow.

Thanks, Palmer

According to the UN Food and Agriculture Organization, the average protein intake per year in the US is 92 pounds, and 62 for the world as a whole.

The average annual meat intake in the US is 270 and in the world is 103 pounds. So, it seems that it is not only a lot of their protein, it's a larger percent of their diet as a whole.

PROTEIN: FAO Statistics Division 2010, Food Balance Sheets, Food and Agriculture Organization of the United Nations, Rome, Italy, viewed 17th March, 2011,

MEAT: Food and Agriculture Organization of the United Nations (FAO) 2010, Livestock and Fish Primary Equivalent, 02 June 2010, FAOSTAT on-line statistical service, FAO, Rome, viewed 1st November, 2010,

The paper mentions that up to 80% of native people's protein comes from the watershed, in "some cases surpassing 300 pounds of food per person annually". What is the significance of 300 pounds? Is this a lot of food compared to, say, non-native people or native people from other parts of AK or the US?

BTW, I thought it was a very good paper.

Subject: Briefing Paper for Feb 8 Meeting with AK Tribal Rep

Denise -- Attached is the briefing paper for the Feb 8 meeting with Lisa Reimers, CEO of the Liamna Village Council in AK. Palmer and Rachel developed the paper with assistance from Region 10 and ORD.

BTW, the meeting is on your calendar.

Stephanie -- Please print for Denise.

Jim
